CONTENTS

PART 1 JANUARY 2005

Mycological Research News

Mycological Research: now number two for citations – In this issue – Ectomycorrhizas and copper toxicity – Copper deficiency or copper toxicity in ectomycorrhizal pines? – Clonal mating-type genes in non-model mushrooms – Genomic strategies in yeast evolution – Host specificity in Pestalotiopsis *– Is long-distance dispersal by wind a reality? – and* Daldinia locuiata *in Scotland* 1

Review

Basidiomycete mycelia in forest soils: dimensions, dynamics and roles in nutrient distribution
J. W. G. Caimey 7

Papers

Disintegration of the *Micareaceae* (lichenized *Ascomycota*): a molecular phylogeny based on mitochondrial rDNA sequences
H. L. Andersen & S. Ekman 21

The genus *Anthracoidea* (*Basidiomycota, Ustilaginales*): a molecular phylogenetic approach using LSU rDNA sequences
M. Hendrichs, D. Begerow, R. Bauer & F. Oberwinkler 31

Towards a phylogenetic classification of *Cordyceps*: ITS nrDNA sequence data confirm divergent lineages and paraphyly
Ø. Stensrud, N. L. Hywel-Jones & T. Schumacher 41

Marchandiomyces lignicola sp. nov. shows recent and repeated transition between a lignicolous and a lichenicolous habit
P. T. DePriest, M. Sikaroodi, J. D. Lawrey & P. Diederich 57

Genetic structure of the *Pleurotus eryngii* species-complex
T. De Gioia, D. Sisto, G. L. Rana & G. Figliuolo 71

SSR-based detection of genetic variability in the charcoal root rot pathogen *Macrophomina phaseolina*
T. Jana, T. R. Sharma & N. K. Singh 81

Restriction mapping of the IGS region in *Alternaria* spp. reveals variable and conserved domains
S. G. Hong, D. Liu & B. M. Pryor 87

Endophytism of *Sclerotinia pseudotuberosa*: PCR assay for specific detection on chestnut tissues
A. M. Vettraino, A. Paolacci & A. Vannini 96

Direct analysis of ribosomal DNA in denaturing gradients: application on the effects of *Phlebopsis gigantea* treatment on fungal communities of conifer stumps
E. J. Vaino, A.-M. Hallaksela, K. Lipponen & J. Hantula 103

Screening of basidiomycetes and xylariaceous fungi for lignin peroxidase and laccase gene-specific sequences
S. R. Pointing, A. L. Pelling, G. J. D. Smith, K. D. Hyde & C. A. Reddy 115

Book reviews

Biodiversity of Fungi: inventory and monitoring methods – Cytology and Plectology of the Hymenomycetes – Pathogenic Fungi – Hongos y Actinomicetos Alergénicos – Carpet Monsters and Killer Spores: a natural history of toxic mold 125

PART 2 FEBRUARY 2005

Mycological Research News

Fungal irritability and survival mechanisms – In this issue – Genetic markers in single spores of AM fungi – Rice blast fungus attackes leaves and roots differently – Why picking wild mushrooms might be bad behaviour – and Life-style choices in lichen-forming and lichen-dwelling fungi 129

Papers

Peroxide accumulation and cell death in filamentous fungi induced by contact with a contestant
P. Silar 137

Oxidative stress response of filamentous fungi induced by hydrogen peroxide and paraquat
M. B. Angelova, S. B. Pashova, B. K. Spasova, S. V. Vassilev & L. S. Slokoska 150

Phylogenetic relationships of *Lecanoromycetes* (*Ascomycota*) as revealed by analyses of mtSSU and nLSU rDNA sequence data
M. Wedin, E. Wiklund, A. Crewe, H. Döring, S. Ekman, Å. Nyberg, I. Schmitt & H. T. Lumbsch 159

Phylogeny and toxigenic potential is correlated in *Fusarium* species as revealed by partial translation elongation factor 1 alpha gene sequences
R. Kristensen, M. Torp, B. Kosiak & A. Holst-Jensen 173

Molecular evidence supports the distinction between *Xanthoria parietina* and *X. aureola* (*Teloschistaceae*, lichenized *Ascomycota*)
L. Lindblom & S. Ekman 187

Taxonomic identity of the Sterile Red Fungus inferred using nuclear rDNA ITS 1 sequences
V. Andijc, A. L. J. Cole & J. D. Klena 200

Relationship among *Lepista* species determined by CAPS and RAPD
K. Scott, C. Desmerger & P. Holford 205

Inter- and intraspecific resolution of nrDNA TRFLP assessed by computer-simulated restriction analysis of a diverse collection of ectomycorrhizal fungi
I. P. Edwards & R. F. Turco 212

Genetic strucutre of populations of *Alternaria brassicicola* suggests the occurrence of sexual recombination
C. H. Bock, P. H. Thrall & J. J. Burdon 227

Phylogenetic studies of *Terfezia pfeilii* and *Choiromyces echinulatus* (*Pezizales*) support new genera for southern African truffles: *Kalaharituber* and *Eremiomyces*
Y. Ferdman, S. Aviram, N. Roth-Bejerano, J. M. Trappe & V. Kagan-Zu 237

Fungal diversity during initial stages of leaf decomposition in a stream
L. G. Nikolcheva, T. Bourque & F. Bärlocher 246

Book reviews
Plant-Pathogen Interactions Introduction to Plant Pathology – The Mould in Dr Florey's Coat – Mushrooms: cultivation, nutritional value, medicinal effect, and environmental impact – Impact of the Family Agaricaceae on Nutrition and Medicine 254

PART 3 MARCH 2005

Mycological Research News
In this issue – Fungi associated with insects or used for applied biocontrol – Powdery mildews as invasive plant pathogens: new epidemics caused by two North American species in Europe – Genetic differences among nuceli in arbuscular mycorrhizal fungi 257

Fungus – Insect Interactions Theme

The beetle gut: a hyperdiverse source of novel yeasts
S.-O. Suh, J. V. McHugh, D. D. Pollock & M. Blackwell 261

A zygosporic stage of the *Harpellales* (*Trichomycetes*, *Zygomycota*) associated with simuliid egg masses
A. M. Rizzo & K.-L. Pang 266

A new species of *Stigmatomyces* from Baltic amber, the first fossil record of *Laboulbeniomycetes*
W. Rossi, M. Kotrba & D. Triebel 271

A new *Leptographium* species associated with *Tomicus piniperda* infesting pine logs in Korea
J.-J. Kim, Y. W. Lim, C. Breuil, M. J. Wingfield, X. D. Zhou & G.-H. Kim 275

ISSR, ERIC and RAPD techniques to detect genetic diversity in the aphid pathogen *Pandora neoaphidis*
M. Tymon & J. K. Pell 285

Molecular characterisation of *Beauveria bassiana* isolates obtained from overwintering sites of Sunn Pests (*Eurygaster* and *Aelia* species)
M. Aquino de Muro, S. Elliott, D. Moore, B. L. Parker, M. Skinner, W. Reid & M. El Bouhssini 294

Up-regulation of Pr1, a subtilisin-like protease, during conidiation in the insect pathogen *Metarhizium anisopliae*
C.-L. N. Small & M. J. Bidochka 307

Termitomyces sp. associated with the termite *Macrotermes natalensis* has a heterothallic mating system and multinucleate cells
H. H. De Fine Licht, A. Andersen & D. K. Aanen 314

Broomcorn millet grain cultures of the entomophthoralean fungus *Zoophthora radicans*: sporulation capacity and infectivity to *Plutella xylostella*
L. Hua & M.-G. Feng 319

Simple, inexpensive media for mass production of three entomophthoralean fungi
L. G. Leite, S. B. Alves, A. Batista Filho & D. W. Roberts 326

Papers

Fingerprinting techniques as tools towards molecular quality control of *Pseudozyma flocculosa*
S. J. Caron, T. J. Avis, T. Boekhout, R. C. Hamelin & R. R. Bélanger 335

Molecular phylogeny of *Ustilago*, *Sporisporium*, and related taxa based on combined analyses of rDNA sequences
M. Stoll, D. Begerow & F. Oberwinkler 342

Genetic variation within *Podosphaera tridactyla* reveals a paraphyletic species complex with biological specialization towards specific *Prunus* subgenera
J. H. Cunnington, A. C. Lawrie & I. G. Pascoe 357

Fungal endophyte *N*-acetyl glucosaminidase expression in the infected host grass
H. M. Li, J. A. Crouch & F. C. Belanger 363

3-*O*-alkyl-D-glucose derivatives induce fruit bodies of *Pleurotus ostreatus*
Y. Magae, T. Nishimura & S. Ohara 374

Temporal and spatial expression of ostreolysin during development of the oyster mushroom (*Pleurotus ostreatus*)
I. Vidic, S. Berne, D. Drobne, P. Mačrk, R. Frangež, T. Turk, J. Štrus & K. Sepčić 377

Book reviews

Insect-Fungal Associations: ecology and evolution – Diseases of Tropical Fruit Crops 383

PART 4 APRIL 2005

Mycological Research News

In this Issue: Changing the biological clock in Neurospora crassa 385

Papers

Morphological and molecular characterization of *Endophyllum* species on perennial asteraceous plants in South Africa
A. R. Wood & P. W. Crous 387

Phylogenetic relationships in some *Melampsora* rusts on *Salicaceae* assessed using rDNA sequence information
M. H. Pei, C. Bayon & C. Ruiz 401

Fusarium graminearum, *F. cortederiae* and *F. pseudograminearum* in New Zealand: molecular phylogenetic analysis, mycotoxin chemotypes and co-existence of species
R. D. Monds, M. G. Cromey, D. R. Lauren, M. di Menna & J. Marshall 410

Host specialization of the mycoparasite *Eudarluca caricis* and its evolutionary relationship to *Ampelomyces*
C. Nischwitz, G. Newcombe & C. L. Anderson 421

Ampelomyces mycoparasites from apple powdery mildew identified as a distinct group based on single-stranded conformation polymorphism analysis of the rDNA ITS region
O. Szentiványi, L. Kiss, J. C. Russell, G. M. Kovács, K. Varga, T. Jankovics, S. Lesemann, X.-M. Xu & P. Jeffries 429

Geographic distribution and diversity in *Claviceps purpurea* from salt marsh habitats and characterization of Pacific coast populations
A. J. Fisher, T. R Gordon & J. M. Ditomaso 439

Molecular data confirm that *Omphalina foliacea* is a lichen-forming basidiomycete
Z. Palice, I. Schmitt & H. T. Lumbsch 447

ITS-RFLP and sequence analysis of endophytes from *Acianthus*, *Caladenia* and *Pterostylis* (*Orchidaceae*) in southeastern Queensland
J. J. Bougoure, D. S. Bougoure, J. W. G. Cairney & J. D. W. Dearnaley 452

Cloning and characterization of a gene encoding a malic enzyme involved in anaerobic growth in *Mucor circinelloides*
Y. Li, I. P. Adams, J. P. Wynn & C. Ratledge 461

Carbon availability affects nitrogen source utilisation by *Hymenoscyphus ericae*
G.-A. Grelet, A. A. Meharg & I. J. Alexander 469

Phosphatases of ericoid mycorrhizal fungi: kinetic properties and the effect of copper on activity
B. R. Gibson & D. T. Mitchell 478

Airborne fungal colonisation of coarse woody debris in North Temperate *Picea abies* forest: impact of season and local spatial scale
R. Vasiliauskas, V. Lygis, K.-H. Larsson & J. Stenlid 487

Variation assessment of airbone *Alternaria* and *Cladosporium* spores at different bioclimatic conditions
F. J. Rodgíguez-Rajo, I. Iglesias & V. Jato 497

External ultrastructure of fruit body initiation in *Morchella*
S. Masaphy 508

PART 5 MAY 2005

Mycological Research News
A tribute to John Webster: holomycologist extraordinaire – John Webster: reflections – Fire, hypogeous fungi and mycophagous marsupials – Palaeopyrenomycites devonicus: *a 400 Myr Old pyrenomycete* 513

Papers

A TRIBUTE TO JOHN WEBSTER: HOLOMYCOLOGIST EXTRAORDINAIRE
Edited by N. L. Hywel-Jones & D. L. Hawksworth
John Webster: a personal perspective
P. J. Fisher 519

The systematic relevance of conidiogenesis modes in the gilled *Agaricales*
G. Walther, S. Garnica & M. Weiß 525

Diagnostic characters of propagules of Ingoldian fungi
E. Descals 545

A re-evaluation of *Lulworthiales*: relationships based on 18S and 28S rDNA
J. Campbell, B. Volkmann-Kohlmeyer, T. Gräfenhan, J. W. Spatafora & J. Kohlmeyer 556

Morphological studies in *Rosellinia* (*Xylariaceae*): the first step towards a polyphasic taxonomy
L. E. Petrini & O. Petrini 569

On the relationships of *Paecilomyces* sect. *Isarioidea* species
J. J. Luangsa-Ard, N. L. Hywel-Jones, L. Manoch & R. A. Samson 581

A synopsis of the aero-aquatic genus *Pseudaegerita* and description of two new species
S. K. Abdullah, J. Gené & J. Guarro 590

Diagnosis and variability of coprophilous *Basifimbria aurea*
G. Hennebert 595

Different evolutionary histories of two *Phragmidium* species infecting the same dog rose hosts
C. M. Ritz, W. F. A. Maier, F. Oberwinkler & V. Wissemann 603

A protective endophyte of maize: *Acremonium zeae* antibiotics inhibitory to *Aspergillus flavus* and *Fusarium verticillioides*
D. T. Wicklow, S. Roth, S. T. Deyrup & J. B. Gloer 610

Production of sordarin and related metabolites by the coprophilous fungus *Podospora pleiospora* in submerged culture and in its natural substrate
R. W. S. Weber, A. Meffert, H. Anke & O. Sterner 619

Biomechanics of stipe elongation in the basidiomycete *Coprinopsis cinerea*
N. P. Money & J. P. Ravishankar 627

Endophytic fungi associated with cacti in Arizona
T. S. Suryanarayanan, S. K. Wittlinger & S. H. Faeth 635

Growth, occurrence and development of septa in *Plasmopara viticola* and other members of the *Peronosporaceae* using light- and epifluorescence-microscopy
A. Kortekamp 640

John Webster: publications 1951–2004
D. L. Hawksworth 649

Book reviews
Penicillium subgenus Penicillium – Phoma Identification Manual – A Monograph of Verticillium sect. Prostrata 655

PART 6 JUNE 2005

Mycological Research News
Checks and balances in endophyte-host interactions – In this issue – Tricho*BLAST: a multilocus database for* Trichoderma *and* Hyporea *identifications – Did pathogenic fungi contribute to dinosaur extinction? – Forthcoming international mycological meetings* 657, 752

Review
The endophytic continuum
B. Schulz & C. Boyle 661

Papers
Dryadomyces amasae: a nutritional fungus associated with ambrosia beetles of the genus *Amasa* (*Coleoptera: Curculionidae, Scolytinae*)
H. Gebhardt, M. Weiß & F. Oberwinkler 687

Morphological, ontogenetic and molecular characterization of *Scutellospora reticulata* (*Glomeromycota*)
F. A. De Souza, S. Declerck, E. Smit & G. A. Kowalchuk 697

Comparative analysis of the cDNA encoding a ClpA homologue of *Paracoccidioides brasiliensis*
J. Camargos Oliveira, N. Da Silva Castro, M. S. Soares Felipe, M. Pereira & C. M. De Almeida Soares 707

The growth response of some *Chytridomycota* to temperatures commonly observed in soil
F. H. Gleason, P. M. Letcher, Z. Commandeur, C. E. Jeong & P. A. McGee 717

The hyphomycete genus *Piricauda*, with the description of a new species
A. Mercado Sierra, J. Guarro & G. Heredia 723

Notes on *Agaricus* section *Duploannulati* using molecular and morphological data
M. Didukh, R. Vilgalys, S. P. Wasser, O. S. Isikhuemhen & E. Nevo 729

Reduced sensitivity of the mushroom pathogen *Verticillium fungicola* to prochloraz-manganese *in vitro*
F. J. Gea, M. J. Navarro & J. C. Tello 741

Mineral composition of basidiomes of *Amanita* species
J. Vetter 746

Book reviews
Mycorrhizas: anatomy and cell biology – Introduction to Biodeterioration 751

PART 7 JULY 2005

Mycological Research News
In this Issue – Centenary of a mycologist: C. Terence Ingold – Terence Ingold reflects – Assembling the fungal tree of life (AFTOL) – Limestone as a source of unidentifiable melanized fungi 753

Papers
The FluG-BrlA pathway contributes to the initialisation of a autolysis in submerged *Aspergillus nidulans* cultures
T. Emri, Z. Molnár, T. Pusztahelyi, Z. Varecza & I. Pócsi 757

The vegetative life-cycle of the clover pathogen *Cymadothea trifolii* as revealed by transmission electron microscopy
U. K. Simon, R. Bauer, D. Rioux, M. Simard & F. Oberwinkler 764

Interactions between the mycoparasite *Pythium oligandrum* and two types of sclerotia of plant-pathogenic fungi
P. Rey, G. Le Floch, N. Benhamou, M.-A. Salerno, E. Thuillier & V. Tirilly 779

Flavonoids exhibit fungal species and genus specific effects on the presymbiotic growth of *Gigaspora* and *Glomus*
J. M. Scervino, M. A. Ponce, R. Erra-Bassells, H. Vierheilig, J. A. Ocampo & A. Godeas 789

Influence of different AM-fungi on the growth, nutrition and forskolin content of *Coleus forskohlii*
G. L. Sailo & D. V. Bagyaraji 795

Molecular identification and detection of *Eutypa lata* in grapevine
R. Lardner, B. E. Stummer, M. R. Sosnowski & E. S. Scott 799

Genetic variation, occurrence of mating types and different forms of *Pyrenophora teres* causing net blotch of barley in Finland
M. Serenius, N. Mironenko & O. Manninen 809

Hypocrella zhongdongii sp. nov. the teleomorph of *Aschersonia incrassata*
M. Liu & K. T. Hodge 818

Haloaleurodiscus mangrovei gen. sp. nov., (*Basidiomycota*) from mangrove forests in Japan
N. Maekawa, H. Suhara, K. Kinjo, R. Kondo & Y. Hoshi 825

Dematiocladium celtidis gen. sp. nov. (*Nectriaceae, Hypocreales*), a new genus from *Celtis* leaf litter in Argentina
P. W. Crous, N. Allegrucci, A. M. Arambarri, M. C. Cazau, J. Z. Groenewald & M. J. Wingfield 833

A reconsideration of *Pseudoperonospora cubensis* and *P. humuli* based on molecular and morphological data
Y.-J. Choi, S.-B. Hong & H.-D. Shin 841

PART 8 AUGUST 2005

Mycological Research News

In this issue – The coronomycin producer: a case of mistaken identity? – Long-range self-organization in Dictyostelium *– Resistance variation in natural pathosystems* 849

Papers

Phytophthora kernoviae sp. nov., an invasive pathogen causing bleeding stem lesions on forest trees and foliar necrosis of ornamentals in the UK
C. M. Brasier, P. A. Beales, S. A. Kirk, S. Denman & J. Rose 853

Characterisation of European and North American *Phytophthora ramorum* isolates due to their morphology and mating behaviour *in vitro* with heterothallic *Phytophthora* species
S. Werres & K. Kaminski 860

Phylogenetic analysis of EF-1 alpha gene sequences from isolates of *Microdochium nivale* leads to elevation of varieties *majus* and *nivale* to species status
N. C. Glynn, M. C. Hare, D. W. Parry & S. G. Edwards 872

Characterisation and epitypification of *Pseudocercospora cladosporioides*, the causal organism of Cercospora leaf spot of olives
A. Ávila, J. Z. Groenewald, A. Trapero & P. W. Crous 881

Molecular and immunochemical phylogeny of *Verticillium* species
M. P. Pantou, O. K. Strunnikova, V. Yu. Shakhnazarova, N. A. Vishnevskaya, V. G. Papalouka & M. A. Typas 889

Caespitotheca gen. nov., an ancestral genus in the *Erysiphales*
S. Takamatsu, S. Niinomi, M. G. Cabrera de Álvarez, R. E. Álvarez, M. Havrylenko & U. Braun 903

Molecular phylogeny and evolution of the maple powdery mildew (*Sawadaea, Erysiphaceae*) inferred from nuclear rDNA sequences
S. Hirose, S. Tanda, L. Kiss, B. Grigaliunaite, M. Havrylenko & S. Takamatsu 912

Parthenosome structure of some corticioid fungi
M. V. Bianchinotti, M. Rajchenberg & A. G. Greslebin 923

Mycelial responses of *Hypholoma fasciculare* to collembola grazing: effect of inoculum age, nutrient status and resource quality
S. Harold, G. M. Tordoff, T. H. Jones & L. Boddy 927

Isolation and *in vitro* cultivation of the insect pathogenic fungus *Cordyceps unilateralis*
P. Wongsa, K. Tasanatal, P. Watts & N. Hywel-Jones 936

Genetic diversity in the gypsy moth fungal pathogen *Entomophaga maimaiga* from founder populations in North America and source populations in Asia
C. Nielsen, M. G. Milgroom & A. E. Hajek 941

Gold content of ectomycorrhizal and saprobic macrofungi from non-auriferous and unpolluted areas
J. Borovička, Z. Řanda & E. Jelínek 951

A fossil *Aspergillus* from Baltic amber
H. Dörfelt & A. R. Schmidt 956

PART 9 SEPTEMBER 2005

Mycological Research News
Announcement: a new publisher for all BMS journals – In this issue – Dictyostelium *may be related to the Fungi after all – The origin of ascomycetes: the Proteolichenes Hypothesis* 961

Papers

Diversity of the *Trichocomaceae* in the Katandra Nature Reserve, Central Coast, NSW, Australia
A.-L. Markovina, J. I. Pitt, A. D. Hocking, D. A. Carter & P. A. McGee 964

Delimitation of *Penicillium virgatum* sp. nov. and *P. daleae* on the basis of morphological and molecular characters
H. Kwaśna & H. I. Nirenberg 974

Cloning and sequence analysis of the *MAT-B* (*MAT-2*) genes from the three Dutch elm disease pathogens, *Ophiostoma ulmi*, *O. novo-ulmi*, and *O. himal-ulmi*
M. Paoletti, K. W. Buck & C. M. Brasier 983

PCR-identification of *Mycosphaerella* species associated with leaf diseases of *Eucalyptus*
A. Maxwell, S. L. Jackson, B. Dell & G. E. St J. Hardy 992

Seed-borne *Botryosphaeria* spp. from native *Prunus* and *Podocarpus* trees in Ethiopia, with a description of the anamorph *Diplodia rosulata* sp. nov.
A. Gure, B. Slippers & J. Stenlid 1005

Specific and sensitive PCR-based detection of *Septoria musiva*, *S. populicola* and *S. populi*, the causes of leaf spot and stem canker on poplars
N. Feau, J. E. Weiland, G. R. Stanosz & L. Bernier 1015

Rostraureum tropicale gen. sp. nov. (*Diaporthales*) associated withy dying *Terminalia ivorensis* in Ecuador
M. Gryzenhout, H. Myburg, B. D. Wingfield, F. Montenegro & M. J. Wingfield 1029

Nine new *Candida* species near *C. membranifaciens* isolated from insects
S.-O. Suh, N. H. Nguyen & M. Blackwell 1045

PART 10 OCTOBER 2005

Mycological Research News
In this issue – A century of rhizosphere research: fungal interactions with plants' hidden half – Two major changes in fungal nomenclature enacted in Vienna – UNITE: molecular identification of ectomycorrhizal fungi – Sex and natural selection in yeast populations 1057

Review

A revision of the descriptions of ectomycorrhizas published since 1961
M. De Roman, V. Claveria & A. M. De Miguel 1063

Papers

Ectomycorrhizal mycobionts of *Pisonia grandis* on coral cays in the Capricorn-Bunker group, Great Barrier Reef, Australia
S. M. Chambers, C. J. Hitchcock & J. W. G. Cairney 1105

Optional mitochondrial introns and evidence for a homing-endonuclease gene in the mtDNA *rnl* gene in *Ophiostoma ulmi s. lat.*
E. A. Gibb & G. Hausner 1112

Ophiostoma dentifidum sp. nov. from oak in Europe, characterized using molecular phylogenetic data and morphology
D. N. Aghayeva, M. J. Wingfield, T. Kirisits & B. D. Wingfield 1127

Phenotypic and DNA sequence data comparisons reveal three discrete species in the *Ceratocystis polonica* species complex
M. Martin, O. Preisig, B. D. Wingfield, T. Kirisits, Y. Yamoaka & M. J. Wingfield 1137

Taxonomic re-evaluation of *Leptographium lundbergii* based on DNA sequence comparisons and morphology
K. Jacobs, H. Solheim, B. D. Wingfield & M. J. Wingfield 1149

Leptographium longiclavatum sp. nov., a new species associated with the mountain pine beetle, *Dendroctonus ponderosae*
S. Lee, J.-J. Kim & C. Breuil 1162

Characterisation of manganese superoxide dismutase from *Phytophthora nicotianae*
L. M. Blackman, H. J. Mitchell & A. R. Hardham 1171

Book reviews
Handbook of Industrial Mycology – Advances in Fungal Biotechnology for Industry, Agriculture, and Medicine 1184

PART 11 NOVEMBER 2005

Mycological Research News
In this issue – Nitrogen transfer by AM fungi 1185

Papers
New PCR assay detects rare tooth fungi in wood where traditional approaches fail
D. Parlitt, J. Hynes, H. J. Rogers & L. Boddy 1187

Foraging behaviour of *Armillaria* rhizomorph systems
J. D. Mihail & J. N. Bruhn 1195

Identification and characterization of *Armillaria tabescens* from southeastern United States
G. Schnabel, A. S. Ash & P. K. Bryson 1208

Phylogenetic analyses of DNA sequences reveal species partitions amongst isolates of *Armillaria* from Africa
M. P. A. Coetzee, B. D. Wingfield, P. Bloomer & M. J. Wingfield 1223

Release and dispersal of basidiospores from *Amanita muscaria* var. *alba* and their infiltration into a residence
D.-W. Li 1235

Andrastatin A and barceloneic acid metabolites, protein farnesyl transferase inhibitors from *Penicillium albocoremium*: chemotaxonomic significance and pathological implications
D. P. Overy, T. O. Larsen, P. W. Dalsgaard, K. Frydenvang, R. Phipps, M. H. G. Munro & C. Christophersen 1243

Gjaerumia, a new genus in the *Georgefischeriales* (*Ustilaginomycetes*)
R. Bauer, M. Lutz & F. Oberwinkler 1250

New Asian species of the genus *Anamika* (euagarics, hebelomatoid clade) based on morphology and ribosomal DNA sequences
Z. L. Yang, P. B. Matheny, Z.-W. Ge, J. C. Slot & D. S. Hibbett 1258

A new species of *Hypocrella*, *H. macrostroma*, and its phylogenetic relationships to other species with large stromata
P. Chaverri, J. F. Bischoff, M. Liu & K. T. Hodge 1267

Phylogenetic analysis and Real Time PCR detection of a presumably undescribed *Peronospora* species on sweet basil and sage
L. Belbahri, G. Calmin, J. Pawlowski & F. Lefort 1275

Microcolonial rock inhabiting fungi and lichen photobionts: evidence for mutualistic interactions
A. A. Gorbushina, A. Beck & A. Schulte 1287

Colonization of cantaloupe roots by *Monosporascus cannonballus*
M. M. Waugh, D. M. Ferrin & M. E. Stanghellini 1296

Development of a PCR-based diagnostic assay for the specific detection of the entomopathogenic fungus *Metarhizium anisopliae* var. *acridum*
S. C. Entz, D. L. Johnson & L. M. Kawchuk 1301

PART 12 DECEMBER 2005

Mycological Research News
In this issue – Ballistospore release captured – Erratum: Protolichenes vs Proteolichenes 1313

Papers
Mitochondrial large ribosomal subunit sequences are homogeneous within isolates of *Glomus* (arbuscular mycorrhizal fungi, *Glomeromycota*)
P. A. Raab, A. Brennwald & D. Redecker 1315

A complex of three new white-spored, sympatric, and host range limited *Geosmithia* species
M. Kolařík, A. Kubátová, I. Čepička, S. Pažoutová & P. Šrůtka 1323

Pythium phragmites sp. nov., a new species close to *P. arrhenomanes* as a pathogen of common reed (*Phragmites australis*)
J. Nechwatal, A. Wielgoss & K. Mendgen 1337

Botryosphaeria species from *Eucalyptus* in Australia are pleoanamorphic, producing *Dichomera* synanamorphs in culture
P. A. Barber, T. J. Burgess, G. E. St. J. Hardy, B. Slippers, P. J. Keane & M. J. Wingfield 1347

Genetic diversity and population structure among strains of the entomopathogenic fungus *Beauveria bassiana*, as revealed by inter-simple sequence repeats (ISSR)
S. Wang, X. Miao, W. Zhao, B. Huang, M. Fan, Z. Li & Y. Huang 1364

NEP1 orthologs encoding necrosis and ethylene inducing proteins exist in a multigene family in *Phytophthora megakarya*, causal agent of black pod disease on cacao
H. Bae, J. H. Bowers, P. W. Tooley & B. A. Bailey 1373

Damage to DNA and lipids in *Boletus edulis* exposed to heavy metals
C. Collin-Hansen, R. A. Andersen & E. Steinnes 1386

Screening of antimicrobial activities in *Trichoderma* isolates representing three *Trichoderma* sections
J. A. Vizcaíno, L. Sanz, A. Basilio, F. Vicente, S. Gutiérrez, M. R. Hermosa & E. Monte 1397

Molecular evidence confirms multiple origins of aquatic hyphomycetes
M. J.-R. Belliveau & F. Bärlocher 1407

Fungal associates of *Salix repens* in northern oceanic Britain and their conservation significance
R. Watling 1418

The occurrence and distribution of *Piptocephalis*, *Syncephalis* and *Chaetocladium* species on dung
M. J. Richardson 1425

Contents Volume 109 (1–12)
